R&D OPERATIONS TRANSFER

SANOFI AVENTIS
Milano - Italy

**COMPLETION
DATE 2008**

PROJECT DESCRIPTION

Transfer of current Italian R&D operations into a new grass roots multi-storey building , with research facilities accommodated on 5 levels(1000 sqm. footprint for each level). The following R&D functions have been in particular allocated in the new facility:

- Pharmacology laboratories (12 labs on two levels)
- Chemical laboratories (12 labs on two levels)
- Zootechnical (Animal house on one level)

New dedicated utilities and power systems have been realised to service the facility.
