QUALITY

IT IS FOSTER WHEELER ITALIANA'S POLICY TO:

1. Provide services and products that satisfy the Client's needs and are in accordance with contractual requirements and applicable laws.
2. Act with integrity, according to the Code of Ethics, the Company's policies and the laws/rules of the communities where Foster Wheeler Italiana operates.
3. Clearly define, implement and maintain a Quality Management System which meets the requirements of ISO 9001 Model and particularly keep our procedure system up to date in order to guarantee the production process management and control.
4. Make sure that all personnel is acquainted with and implements the Foster Wheeler Italiana Quality Policy, and is fully aware of its commitment to the Quality Policy and Quality Objectives.
5. Learn and continuously improve through the critical analysis and review of the activities being developed and of the results obtained.

Foster Wheeler Italiana Quality Assurance System applies to all activities related to: Project Management, Design and Engineering, Procurement, Construction Supervision, Commissioning and Start-up Services for refineries, petrochemical plants, chemical plants, pharmaceutical plants, power plants, and in general industrial plants as well as for environmental protection and infrastructure projects.

FWI Quality Assurance Manager is formally appointed for the general coordination, the development and the effective enforcement of the Quality Assurance System.
The Quality Assurance System Manager will report to the writer through the Management Representative.

Marco Moresco
Chief Executive Officer
